

Em(body)meant

Thirsting body cradled on nurse log
Desiring body wrapped around flesh
Weary body mired in mud
Fragile body hidden in corners
Fetus body drawn inward inward yearning
 reclamation reclamation reclaimed
Fertile body flooded with ideas, fingertips creating a raging river

Body swaying, body shedding,
Body sweating, body singing.

Moonlight caressing body open awake
Lotus flower body
 calling for lover.

Dark cloud thunder lighting body
 closed to touch body
Curious body, just enough body
 somebody
 everybody
 anybody
 body meant to be
embodiment
